2ml	from £400
3ml	from £600

Nasolabial Folds

Nasolabial folds aka 'smile lines' or 'laugh lines' are the two skin folds that run from each side of the nose to the corners of the mouth. They separate the cheeks from the upper lip. Genetics, ageing and certain lifestyle factors can affect how prominent these are and can be smoothed out with the use of dermal fillers to restore volume and even out the lines.
